

MASTER ABRASIVES

Cengar Air Saws & Accessories

The Cengar logo features a stylized, swooping graphic in white and yellow above the brand name "Cengar" in a bold, black, sans-serif font, followed by a registered trademark symbol (®).

Master Abrasives' tool offering includes the Cengar air saw and accessories range.

These products have been designed for professionals in demanding environments where reliability, low weight, easy handling, low noise, and low vibration levels are important in protecting the operator and providing a high level of productivity.

Air Saws

A range of air saws for use in demanding environments where reliability, high productivity and operator safety is important.

Benefits

- Low air consumption
- Low noise and vibration
- Easy and inexpensive to repair
- Fast cutting under load
- Environmentally friendly

Applications

Suitable applications include pipe cutting, metal work, oil, gas & petrochemical, GRP & composites, specialist motor trade, mining, wooden pallet repair and general maintenance.

Accessories

Cengar also supply a comprehensive range of accessories to be used with their saws.

Green Oil

Green oil provides essential lubrication.

Air Tool Cleaner

Removes dirt, moisture & oil residue quickly from the inside of all air tools.

Inline Oiler

Quality inline oiler for use with all air driven tools. One fill lasts all day.

Saw Blades

Bi-Metal blades, made from high-quality European Steel, will not shatter even when bent at difficult angles.

Please contact us for further information or technical applications advice.
